

Multiple Heads • Reliable • Easy Operation

Compact Design

HP TIJ 2.5 Technology

Easy Operation

Easy Maintenance

High System Integration

OMEGA series printer in touchable high resolution printer based on TIJ2.5 tech, with high resolution and good reliability. It can control 1 - 2 print heads, support to print text, batch number, date, barcode, image, etc.

### Highlights

1. With 7 inch touch screen, it is easy to operate.
2. It support to print database with text and barcode.
3. Inner built network, which can receive external data and command.
4. Metal sheel, industrial design, which makes printer firmer.
5. High system integration, small in size, less component, easy install and maintenance.

### Product Details

## Parameters

### Print height

EL - 1	12.7mm
EL - 2	2*12.7mm

### Print speed & resolution

40 m/min & 150 - 300 DPI

### Print system

HP TIJ2.5

### Interface type

USB/Network

### Ink System

Can use together with OMEGA UISS ink system

### Ink Type

Water / Solvent based

### Sensor

Simulation sensor / External sensor

### Encoder

Simulation speed / External encoder

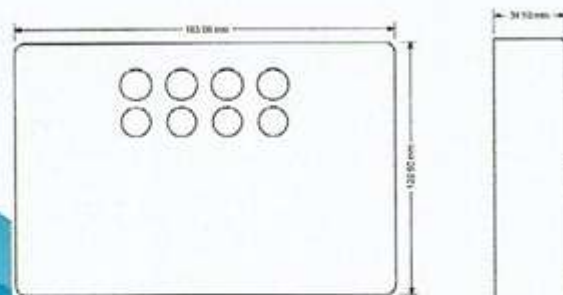

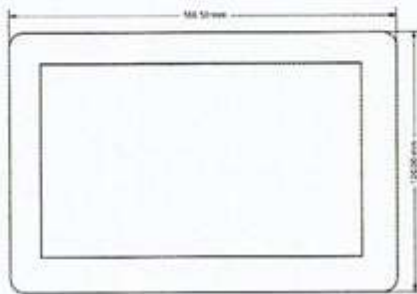

### Other special functions

It also supports to print the real time, shift code, Julian date

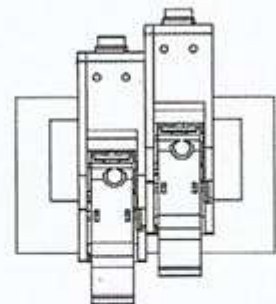

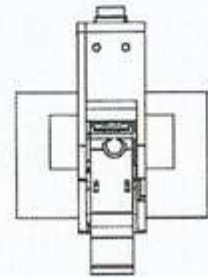

### Apply industries

1. Food & Beverage, Daily chemical, pharmaceuticals, Building material, chemical etc
2. High speed flexo film print
3. Carton manufacture and print industry

## Size

## Printer head
